Husbandry Services

A vessel may need much more than simple ship agency services when in port. The need often arises for husbandry services, which can sometimes mean the involvement of a different agent to that which is handling the port call. Maroos can avoid that by providing professional husbandry services at ports and terminals all over Iran. These services include:

- Crew handling - meet & greet, hotel bookings, shore pass arrangements, etc.
- Crew welfare - doctor, dentist, mail, and prepaid telephone calling cards
- Spares clearance and delivery
- Inward & outward clearance
- Liaison with local authorities
- Follow-up activities with workshops, contractors etc.
- Bunker fuels and lubricants
- Communication assistance
